The Tournament will be played using a system developed in Estonia and popularized at the Finnish Open. The concept is **maximum play** for all participants.

All players will:

- have a second life in regards to gaining medals
- play at least as many matches as the eventual winner
- end up with a unique finishing position

The first stage will be a simple knockout draw, and all players will start in this draw. The gold and silver medals will be awarded to the finalists in the simple knockout draw.

All players who lose in the simple knockout draw will be entered into the second life draw. The winner of the second life draw will be placed third and will receive the bronze medal.

All players who lose in the second life draw, prior to the bronze medal match, will play off for final positions in a progressive knockout with other players who have lost at the same stage.

The event will be mixed gender i.e. all entrants will be in the same draw.
